

Course Title: Production Technology (Engineering & Management)

Course Duration: 7 days

Who Should Attend: Productions Engineers, Reservoir Engineers and Petroleum Engineers.

Course Content:

- Introduction to Production Technology
- Reservoir Production Concepts
- Completion Concepts
- Multiple Zone Completion
- Advanced Completion
- Perforation
- Artificial Lift
- Formation Damage
- Stimulation
- Hydraulic Fracturing
- Sand Control
- Well Performance
- Field Development Concepts

- Practical Training (Software)
Participants shall practice learnt concepts on industry-standard software
